LITE SOURCE POLICY STATEMENT

LITE Source Purpose: To provide educators with resources to enhance the integration and delivery of Technology Education in the K-14 curriculum.

LITE Source Editorial Policy: Materials appearing in this journal, including advertising, are expressions of the authors and do not necessarily reflect the official policy or the opinion of LITE, its officers or its staff.

Referee Policy: All professional articles in LITE Source are refereed, with the exception of selected activities and reports. Refereed articles are reviewed and approved by the Editorial Board before publication in LITE Source.

To Submit Articles: All articles should be sent directly to: LITE Source, 1028 Drexel Drive NE, Grand Rapids, MI 49505. For guidelines and article format write directly to the above address. Please submit five (5) copies; a copy on a high-density disk is also desired (please state which software package was used).

What is the LEARNING INSTITUTE FOR TECHNOLOGY EDUCATION?

LITE is a nonprofit Michigan corporation dedicated to assist in the integration of Technology Education in the schools. Teacher inservice workshops (Technology Fests) will be organized and managed; Technology Learning Activities (TLAs) will be published to keep teachers up-to-date on happenings and materials in Technology Education.

To sum it up in one sentence, the Learning Institute for Technology Education will be a center of resources for Technology Education.

Letter from

by Christine Bengston

The Editor

Dear Readers:

Well another summer has passed and we are back to school! This summer has been one of refreshing, replenishing and getting ready for the next batch of fresh faces!

Our curriculum pieces in this issue promise to give all of us some fresh new ideas to spark up our year. Be sure to also read the professional update from Dr. Jim LeVande from the state department.

Share our ideas with fellow staff and administrators and bring them along on October 5th and 6th to Livingston Educational Service Agency in Howell for this year's Fallfest. See this issue for details and registration. I hope to see all of you there!

We want to hear from you! We welcome your article, comments, and tips. Refer to the *LITE Source* editorial policy for submission information.

Sincerely,

Christine Bengston, Publications Editor

Bringing TTS

To YOUR WORLD

- ♦ Thematic based lab activities grades K-8
- ♦ Inquiry based hands-on approach
- ♦ Delivers Science & Technology Standards
- ♦ Uses real world situations to create a challenging atmosphere
- ♦ Progressive learning activities
